

METHOD AND APPARATUS FOR MAKING A CALL FROM AN ADDRESS LIST
OR A CALL HISTORY LIST

ABSTRACT

5 A method and apparatus of managing a phone device of a
personal digital assistant (PDA) is disclosed. In one
example of the present invention, the PDA retrieves a call
history list from a stored memory location, the call history
list including a call history list record. The PDA then
10 displays at least a portion of the call history list on a
screen of the PDA. The call history list preferably
includes phone numbers and names associated with those phone
numbers. In another example, the method further includes
displaying call details of a selected call history list
15 record. The call details preferably includes a date, a
timestamp, and a duration.
